

URiM Leadership Program and Travel Scholarship

For 4th Year Medical Students

Leadership in Medicine

The UVA GME Community is sponsoring a new leadership opportunity for 4th year medical students accepted into elective rotations at UVA (July-October). For students accepted into the Leadership Program, Friday afternoons during each block will be dedicated to seminars, workshops and hands-on experiences in Leadership in Medicine, Addressing Health Disparities, Successful Residency Applications and Internship Survival.

Additionally, participants will have a dinner with current Trainees and representatives from the Housestaff Council for Diversity and Inclusion, facilitated meetings for those interested in research, tour of the hospital and Charlottesville, and a meeting with the Chief Diversity Officer.

There will be a limited number of \$1,500 travel scholarships available.

Eligibility and Application Process

The Program is open to 4th year students who either are part of a group underrepresented in medicine or who have a strong interest in DEI work. Interested students must apply and be accepted to the clerkship of their choice through VSOL. Space in the Leadership Program is limited.

The Program and Scholarship application can be found in the Required Documents section of the AAMC's VSLO application. Participating electives can be found in almost all of our core residency programs.

Please contact the individual UVA Clerkship Coordinators with any questions.
